

# My Brightness

## Vs.1

Well I've been hit from every corner; I've been thrown from side to side  
And I'm cracked up on the inside, so I come to You for life  
Your presence always heals me so I want to drink it in  
And You know where I'm going God and You know where I've been

## Chorus

And Your love is like a rock when I'm spinning  
Your love is like a rock when I'm spinning  
Your love is like a rock when I'm spinning around

## Vs.2

Yesterday I felt so angry and today so insecure  
And I hate it that I wrestle with the God that I adore  
Your presence always heals me, so I want to drink it in  
You know where we're going God, and you know where I've been

## Bridge

And I know less about You, but my heart loves You so much more  
You're the bright in sadness, You're my brightness

## Vs.3

I wish this thing could pass from me but I'm wanting what You want  
So bring me high or bring me low just hold me in Your love
